PASTA POST

Caleb Williams scored single digits for the 7th time in his career

B. Beans

A.1: Just as WR Mike Evans was making his glorious return to the football field suffered

a broken collarbone and is now going to be out for roughly 8 weeks! Only #glee for the Geese is that he may be back in time for the Fantasy Playoffs.

A.2: Just when you think Drew might have begun to figure things out (pretty sure nobody thought this but play along) he goes and benches not 1 but 2 QB's who dropped 30 burgers in favor of...Caleb Williams. Williams has only scored over 20pts in 10 of his 22 starts.

POST PHUNNIES

A.3: We all like to dunk on Drew but what's better than seeing Drew lose? Couldn't be seeing Donny's fraud team wither away into nothing could it? This is honestly impressive. 2 weeks ago, he goes top 4 level low with 86.35pts (Allen & Henry were not on bye). Then follows it up by barely scraping together 100pts. The Mafia are on a 2-game skid and have the 2nd lowest PF in the league. This week he plays the only team statistically worse than him (Drew). Oh, and not to mention, his PA is 4th lowest in the league. This guy STINKS!
